Addition and Subtraction of Money

Word Problems

(4.NBT.4)(4.OA.3)

Directions: Solve the following word problem using numbers, pictures (model drawings), and words. 😊

Margaret spends \$85 each month on her cell phone bill, \$750 on rent, \$425 on food, and \$200 on gas. If she earns \$1,720 a month how much money does she have left?

Answer: _____

Name _____

Date _____

KEY

Answer: Margaret has \$260 left.

I know I needed to add all of Margaret's bills together then subtract that amount from what she makes a month. $\$85 + \$750 + \$425 + \$200 = \$1,460$. $\$1,720 - \$1,460 = \$260$. She has \$260 left.
