Division – The Area Model
Word Problems with Single Digit Divisors
(4.NBT.B.6)

Directions: Solve the following using the **area model**. Multiply to check your work.

① Molly has 210 app store points to share equally with five friends. How many points will each friend get?

② Evan wants to buy an electric guitar that costs three hundred four dollars. He makes 4 dollars per day doing chores around the house. How many days will it take for Evan to earn enough money to buy the guitar?
