Division – The Partial Quotient Method  
*Word Problems* with Double-Digit Divisors

(5.NBT.B.6)

**Directions:** Solve the following using the **partial quotient method**. Multiply to check your work.

① Luke's favorite video game has 456 coins to collect. They are spread evenly throughout 24 levels. How many coins can be found on each level?

② Allie loves grape juice. She bought 357 bottles of the delicious beverage. If she drinks 21 bottles per week, how many weeks will it take Allie to drink it all?
