Tape Diagram and Model Drawing
Problem Solving, Addition and Subtraction
(4.NBT.4)

Directions: Solve the following word problem using numbers, pictures (model drawings), and words. 😊

You are collecting signatures for a petition. You collected 1,703 the first week and 2,014 the second week. How many more signatures do you need to reach your goal of 5,000?

Answer: _____

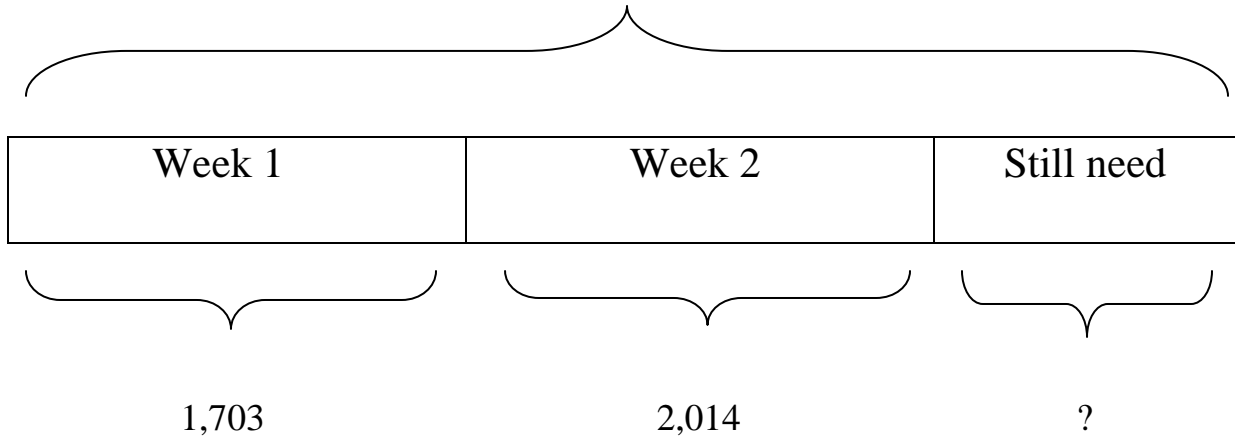

Name _____

Date _____

KEY

Answer: 5,000

$$1,703 + 2,014 = 3,717$$

$$5,000 - 3,717 = 1,283$$

$$\text{Check: } 1,703 + 2,014 + 1,283 = 5,000$$

You still need 1,283 signatures to reach your goal of 5,000 signatures.
